

Join Us for a 3-Day Family Healing Workshop in Orange County

Dr. Kenneth Perlmutter leads this 3-day workshop in Orange County. Fri–Sun, December 4–6, 2015:

HOME FOR THE HOLIDAYS: NOW WHAT?

Specifically designed for parents, siblings, partners, and children (12 and up) of a loved one who has Addiction, Depression, Trauma or Disordered Eating

Family members know all too well the pain and difficulty of having a loved one who has needed intensive treatment. All too often, parents and partners are left out of the conversation or simply provided disease education and expected to figure things out for ourselves.

This 3-day workshop, facilitated by a Family Systems Psychologist, will provide family members with freedom from stuck ways of thinking, specific tools and techniques to manage communication, and a new set of allies. Make these holidays yours.

We'll create a safe and productive work space in which to work together on our shared goals:

Improve Communication

Reduce Stress and Chaos

Promote Wellness for All Members

Build Closeness and Rebuild Trust

Make "Home for the Holidays"

Safe and Sane for All
